BARNET PROJECT, GREATER LONDON | Zeus Modern | Bioclimatic Pergola

The Zeus Modern system has been installed in a private garden in London. In this project powder coating on both mainframe and aluminium louvres chosen as RAL 9016 Traffic White colour. Modern is ideal in metropolitan settings. Thanks to the robust hanging system which offers a perfect solution for minimalistic appearance, it creates outdoor spaces without the need for any posts in everyday snapshots. It gives a wonderful hang look while offering protection from the seasonal vicissitudes. It brings style and functionality to your outdoor spaces.

The fully automated Bioclimatic aerofoil louvres can adjust the shading on your terrace by rotating and retracting operation. When fully closed the top area becomes totally water-resistant. This way you can enjoy a healthy outdoor lifestyle from the early beginning of spring till autumn.
