DONINGTON PROJECT, EAST MIDLANDS | Orion Plus | Cassette Awning

The orion plus cassette awning has been installed in a large private garden in the East Midlands area.

The decking area covered by the awning provided a nice shaded area for very sunny summer days. Our clients said that they are very pleased with the product and they are using it almost every day.

They said the main reason for ordering the awning was dreaming of a useful outdoor area where they can chill and spend time. They also added, that they were very impressed that due to the product's specifications, we could produce an awning with the perfect dimensions for their large garden.

Our customers say that we have competitive prices and good-quality products. We are very happy to hear these beautiful comments and we continue to create dream projects from our head office in Manchester.
