### MANSFIELD PROJECT, NOTTINGHAMSHIRE | Orion Plus Cassette Awning

In this project, we've completed our installation of orion plus awning in a cosy and quiet neighbourhood in Mansfield. Through our assistance, our client has decided on their shading system.

They ordered a orion plus cassette awning system with cream (314 020 120) fabric colour from our Sattler awning fabric colour swatch. For the aluminium frame, the selected colour was RAL 7016 Anthracite Grey Sand Paper Texture Finish. Following our client's needs, we have achieved these amazing results. A stunning awning system has been installed and it made the garden even more complete and luxurious.

There are limitless opportunities that awning can give to your outdoor space. Awnings can be used for all sorts of design and practicality - terrace shade, conservatory aesthetics, expansion of space, smoking areas. If you're looking for something similar do not hesitate to contact us.
