MIDDLETON PROJECT, GREATER MANCHESTER | Zeus Retro | Bioclimatic Pergola

Another brilliant project has been completed by our team in a private garden. We have installed an amazing Zeus Retro system to cover the hot tub area. Pergola completed with the led lighting systems, and sliding doors of the right side.

BBQ and bar area covered with awnings, motorized blinds on the one side, guillotine glazing on the other side.

The guillotine glazing is a popular and space-saving design that is ideal for any sized window. It is very easy to manage it with remote control. Motorised blind colour RAL 7421 Grey Camouflage Sand Paper Texture Finish.
