MOZKITOS COFFEE HOUSE NESTON PROJECT - SUBULATE | QUERCUS MINIMA

GOSS Outdoor has been commissioned to work on a project for an incredibly stunning alfresco area at the cafe, Mozkitos Coffee House in Neston. We have installed SUBULATE Quercus Minima systems to create a super enclosed and inviting area for the customers. This project covers outdoor area of Mozkitos Coffee House. Our client Mrs LS said that she wanted to increase the seating capacity for her business.

Mrs LS, who said she got very good reviews from her own customers about the pergola, says it gives a holiday feel in nice weather.

Mrs LS said, "People feel a lot safer sitting at outside especially time for COVID-19 and also this pergola gives us a chance of sitting outside even in the bad weather." We congratulate Mrs. LS for the new look of her business and continue to sign other beautiful projects like she is satisfied with our installation team and our products.
