PRESCOT PROJECT, MERSEYSIDE | Orion Cassette Awning

We have just completed a beautiful residential outdoor project in Liverpool. This stunning awning system has been installed to create a chic cosy atmosphere to match the clients already gorgeous peaceful garden.

The awning is a very modern system that can add that dash of luxury to any outdoor area and increase the amount of shelter.

This Orion Cassette Awning, purchased through our Costco online branch, was loved by our clients. They said that they were 100% happy with the lovely, secure quality of awning that we provided them with, and that if they had more space they would have had another installed. Our clients told us that because of their awning they now have a perfect space to be sheltered from the sun and rain and have a good working space outdoors. They believed we provided impeccable customer service and would recommend GOSS Outdoor systems.
