**SMARDEN PROJECT, KENT | Selene Classic Awning**

Our GOSS Outdoor Installation team has delivered their exceptional craftsmanship by installing this exquisite Selene Awning that perfectly enhances the beauty of this remarkable garden in the South of England.

A traditional chic, dual module was utilised to expand coverage with its impressive span. The SELENE RANGE series comes with a Retractable & Ready to Mount system, complemented by a chosen fabric. This product comes standard as manually operated with a winder/crank handle, however, we can add a motor and remote control to this option to operate via remote control. It's ideal for patios, balconies or commercial applications such as bars and restaurants hospitality. It is a retractable awning moving through tensioned aluminium arms with bows and a motorised transmission package. This application had a width of 4000mm and projection at 4000mm.
