THE ITALIAN CLUB LIVERPOOL | POSEIDON CASSETTE AWNING | Awning System

A true classic.

The awning installed for this commercial establishment is one of our most traditional styles, the Poseidon awning. This model in particular operates with a crank that turns and extends the awning, a technique used when operating an original style awning with a motorised operation. The cloth picked for this project complements the Italian Club's branding matches the chic feel it possesses, allowing the shop-front to stand out among the crowd of other establishments.
