### URMSTON PROJECT, GREATER MANCHESTER | Orion Plus Luxe | Cassette Awning

A gorgeous Orion Plus Luxe Awning has been installed at this stunning home in Urmston. This particular awning covers our client's seating area wonderfully and has a lovely aesthetic that complements the rest of the house.

Our clients also opted for an additional heater which allows them to be able to stay warm and use their system all year round and a vibration sensor that allows them to keep their awning extra safe.

Our clients had heard about us through our promotions at Costco and said they use their system near enough every day as it is like an additional cosy room. Our clients also added, that their favourite aspect of their system was that they can keep it permanently retracted very easily when the weather isn't too bad. They also believed we provided brilliant customer service, and that our product solved the problem of being able to leave their patio doors open as they know confidently now that they are sheltered.
