WORSLEY PROJECT, GREATER MANCHESTER | Orion Cassette Awning

Another beautifully finished project has been added to one of our previous projects!

This gorgeous Orion cassette awning has allowed an extension onto our previous Zeus project to allow that extra bit of shelter for this relaxing barbecue and lounging area.

This simple addition of such a classic, gorgeous awning has provided that extra bit of luxury and security to our lovely customer. The ability to attach the awning to the previously installed Zeus in the same RAL colour, and similar fabric colour, has allowed for a beautifully finished, seamless transition from the bioclimatic system to the awning.

Do more for your garden and create your dream outdoor area with the team at GOSS Outdoor!
