MOLOKO LIVERPOOL PROJECT | 4X SUBULATE QUERCUS MINIMA | Retractable Pergola

GOSS Outdoor has been commissioned to work on a project for an incredibly stunning alfresco area at the pub and music establishment, MOLOKO Liverpool. This was an installation of grandest heights, where we have installed a total of four SUBULATE | Quercus Minima systems to create a super enclosed and inviting area for the customers. Our team has also implemented dimmer LED lights and double Infrared Heaters to complement the shading systems.

The manager of MOLOKO Liverpool, Mr Jordan B, talks about his experience with GOSS Outdoor: "Ever since we have had the pergolas for the past 5 weeks, it has really made a difference outside. The installations have improved the extent we are able to use the alfresco area. The lighting and dimming options create a super chill area in the evenings for our customers and it also attracted a lot more people ever since."

TECHNICAL INFORMATION

Category: Retractable Pergola Systems

Product: SUBULATE | Quercus Minima

Aluminium: RAL 7016 Anhracite Grey with Texture Finish

Fabric Choice: SIOEN Grey 3D Effect B8118/7024

Lighting: 3W Spot Led Lighting dimmer option
