MULINO RESTAURANT, GREATER MANCHESTER | Subulate Quercus Minima,

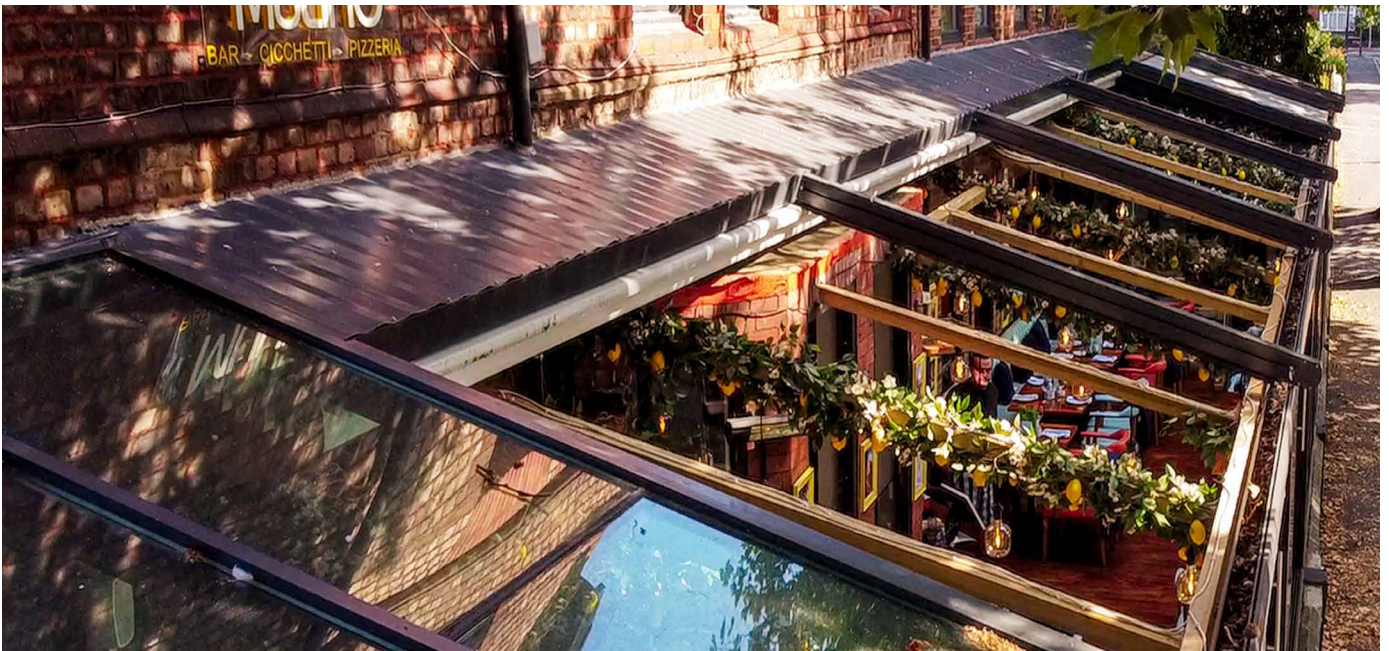

We've completed an amazing outdoor project for Mulino's Restaurant located in the heart of Urmston, Greater Manchester. Which from now on is accompanied by our pergola module, to create a stunning, chic atmosphere whatever the weather. Indulge in our new pergola project creating that bridge between outdoors and indoors.

Our system on this module provides that cosy atmosphere on cool summer nights to enjoy your Italian dining, all while being practical and stylish.

As well as placing our beautiful Subulate Minima system, we've also covered the entire outdoor area with sliding door systems and aluminium doors. In addition to the amazing features, we've installed heaters that can keep the outdoor seating area warm even during the winter.

In this project, the aluminium coating on the mainframe of the pergola was chosen as RAL 7016 Anthracite Grey with Matte Finish. The retractable pergola fabric was chosen is Vexillum B8116 | 9002 Ghost White.
